*Con mezzi di sollevamento adeguati o se il caso manualmente, posizionare il prodotto vicino al luogo d'installazione recintato.*

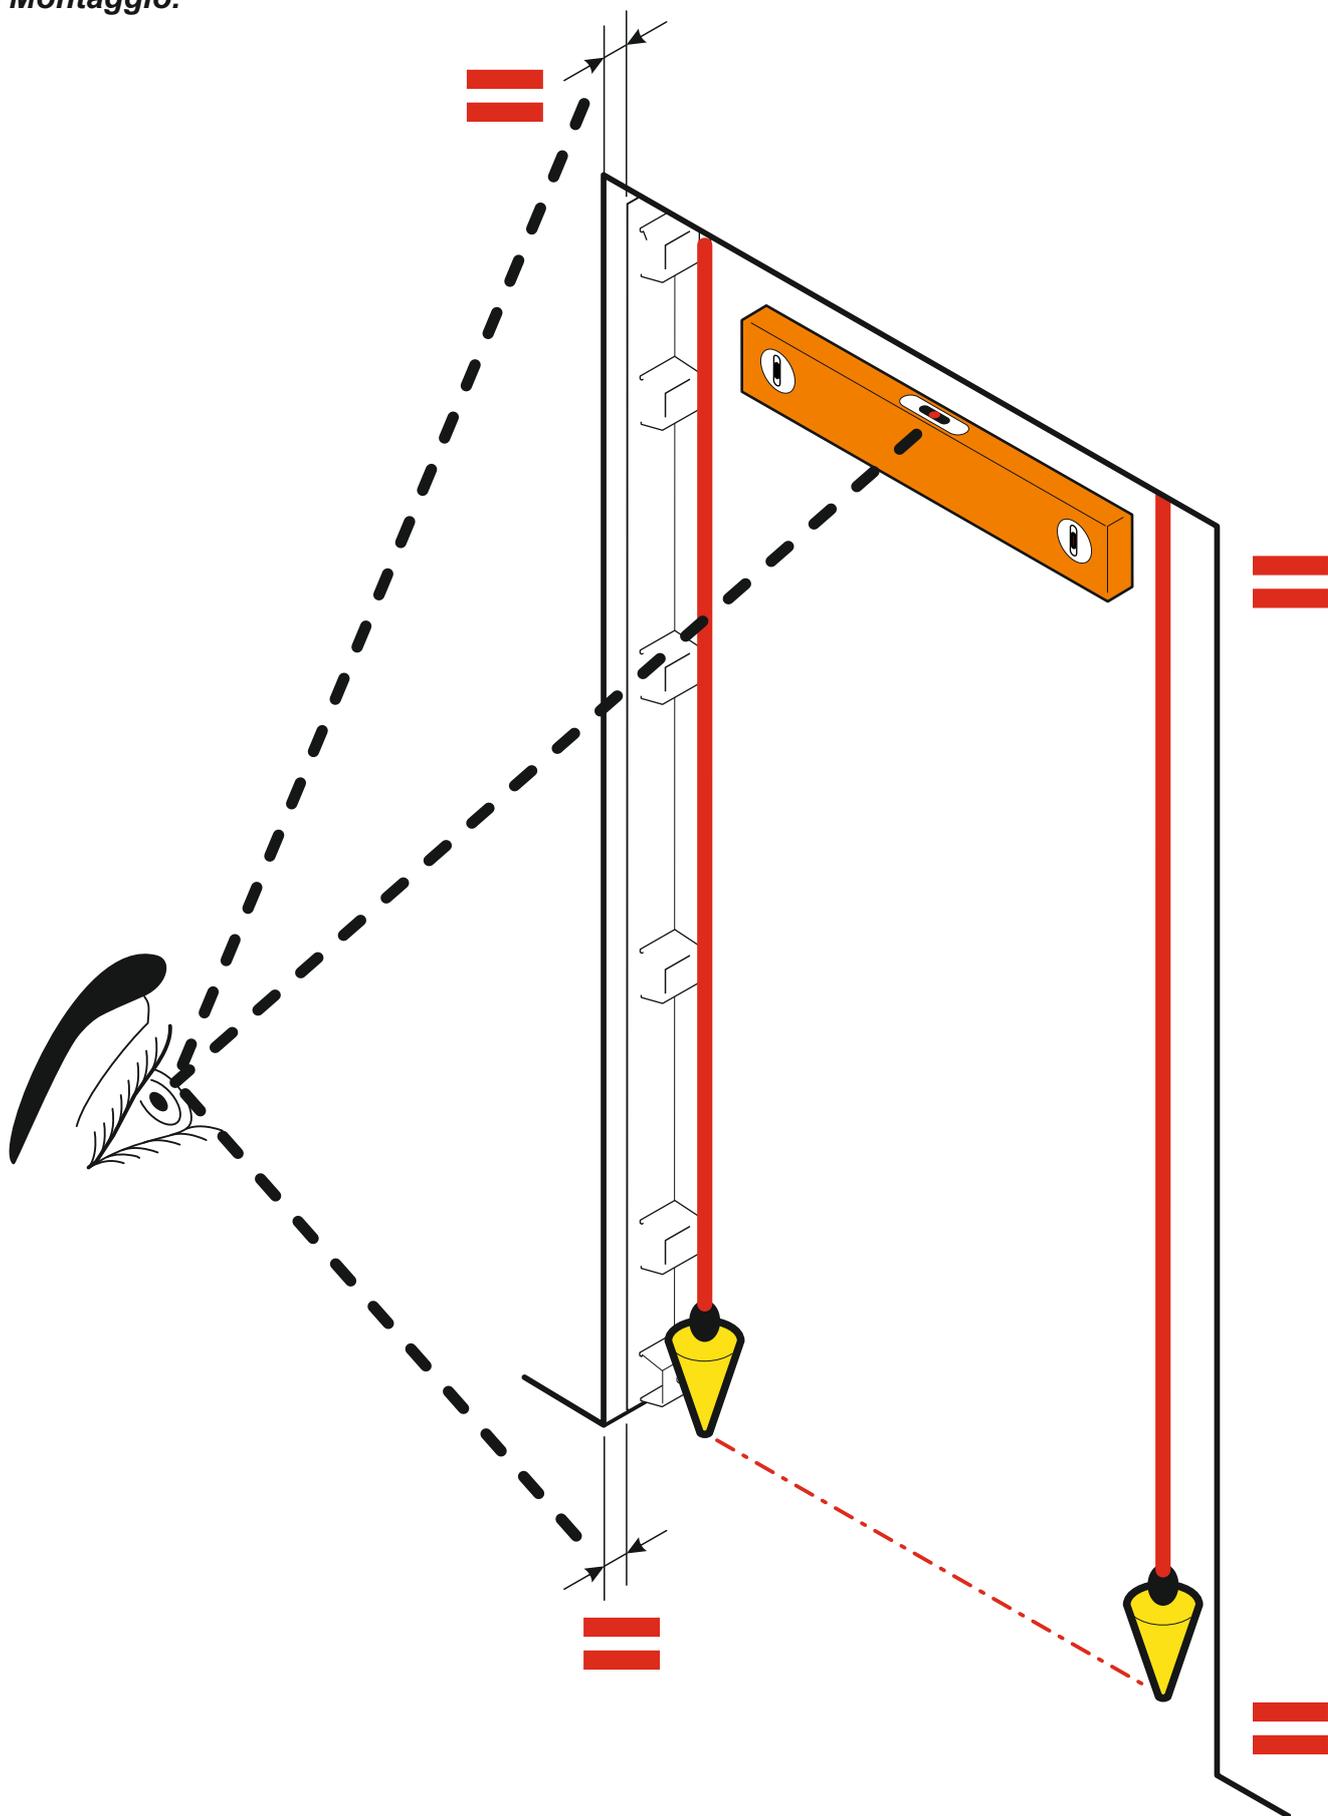

Place the door as much closer as possible to the installation site.

**IMPORTANTE!**

*Prima di procedere al montaggio della Porta RASOMURO controllare ATTENTAMENTE che il Controtelaio sia A PIOMBO ed in BOLLA. Se non è così bisogna, OBBLIGATORIAMENTE, far sistemare il Controtelaio, PRIMA di procedere al Montaggio.*

**IMPORTANT!**

Verify the perfect installation of the subframe before installing the door. If the subframe IS NOT ALIGNED, adjust it BEFORE proceeding.

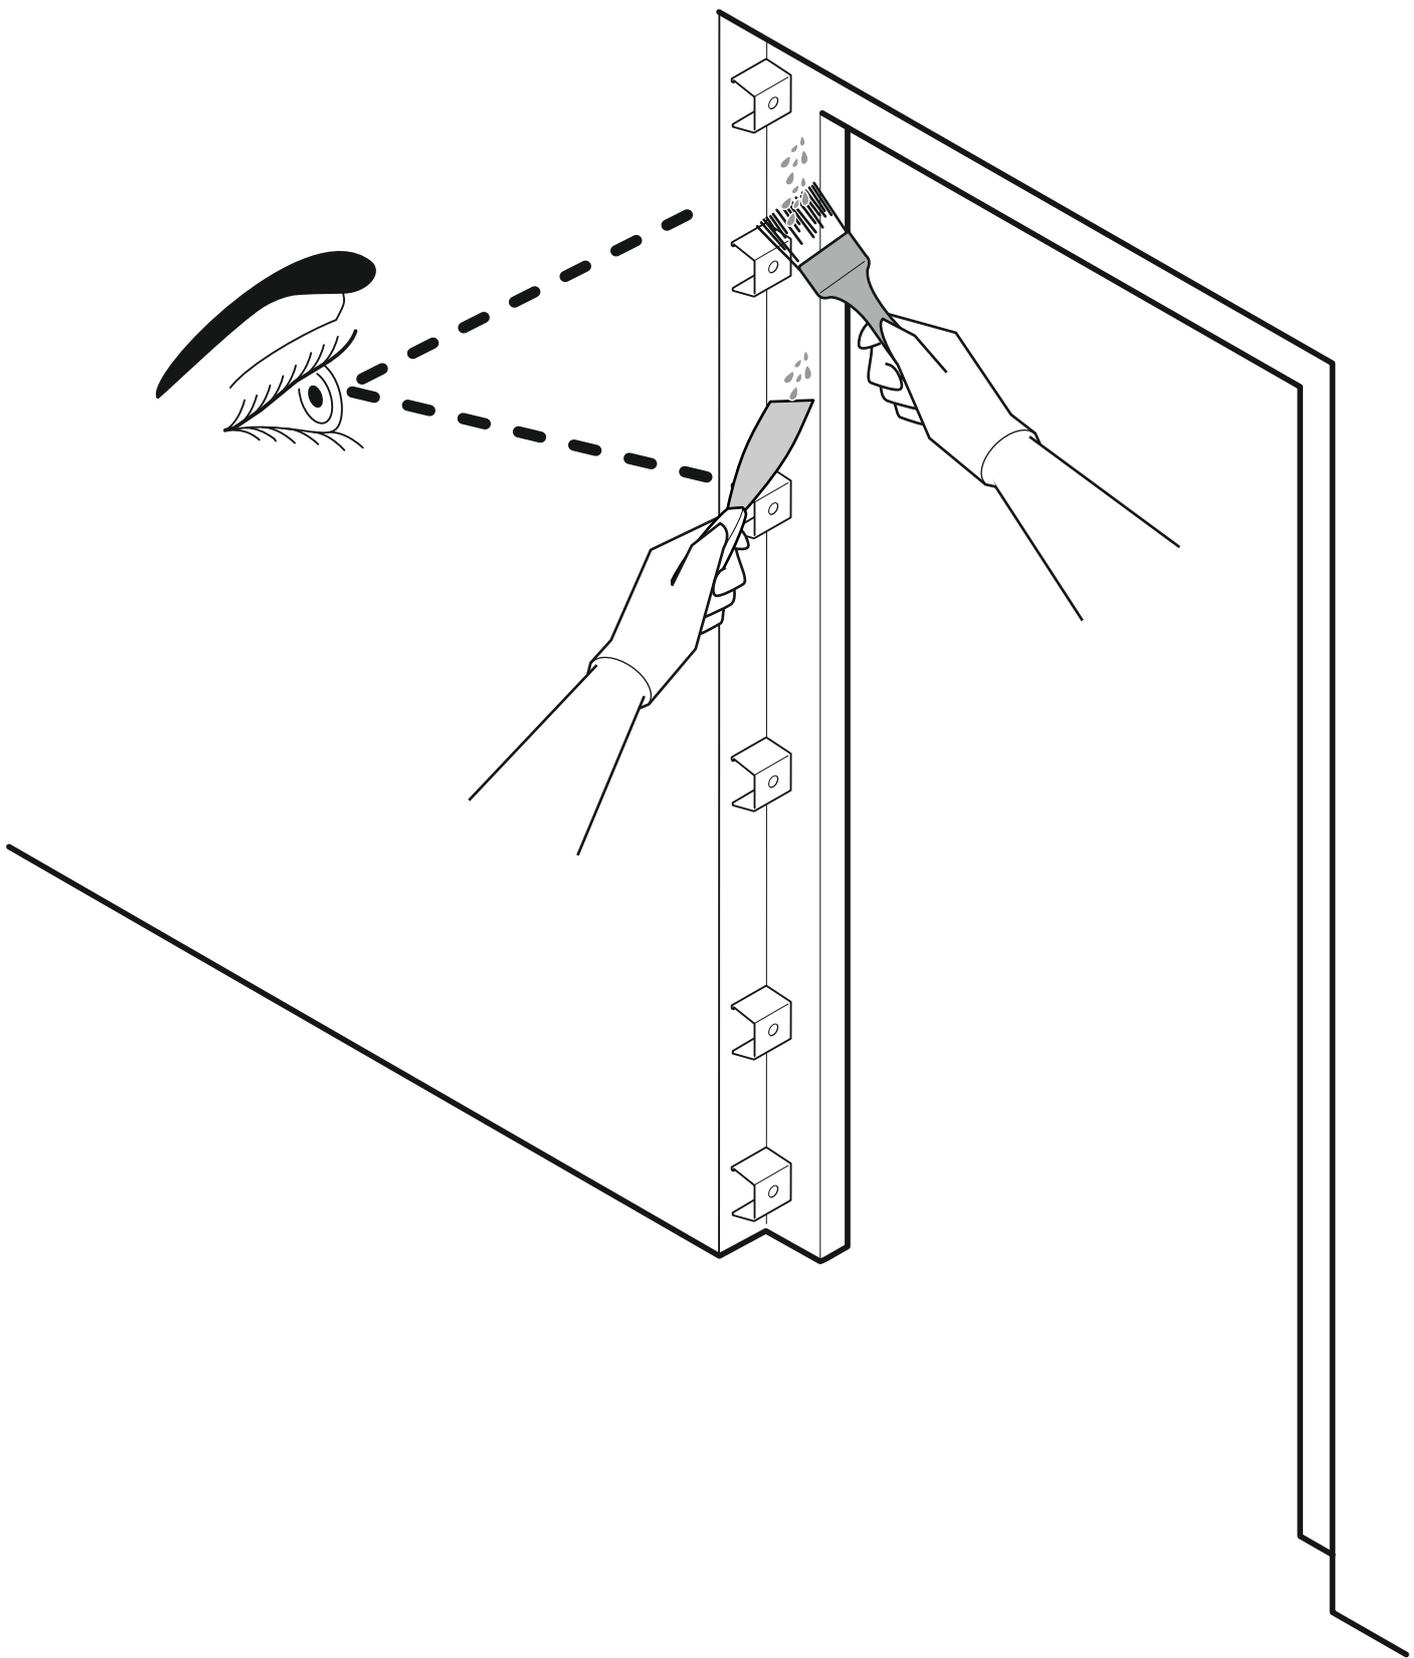

**IMPORTANTE!**

*Pulire il Controtelaio da qualsiasi residuo di muratura rimasto.*

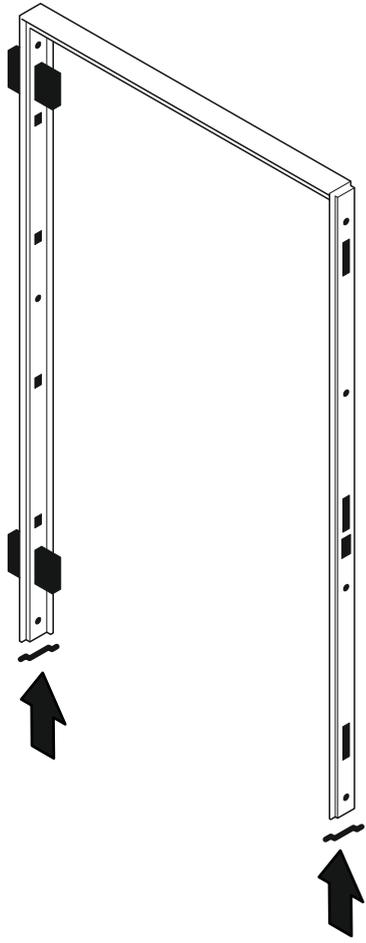

**IMPORTANT!**

**Clean the subframe to remove all residual materials.**

*Alzare la porta e posizionarla sopra il supporto in MDF.  
Far scorrere la porta fino ad inserirla nelle cerniere e sentire due **CLACK**.  
Significa che la porta appoggia correttamente nei perni superiori delle cerniere.*

Lift the door and place it on the MDF support. Move the door to install it on the hinges until you hear the “**clack**”. This noise means that the door is well fixed on the upper hinge.

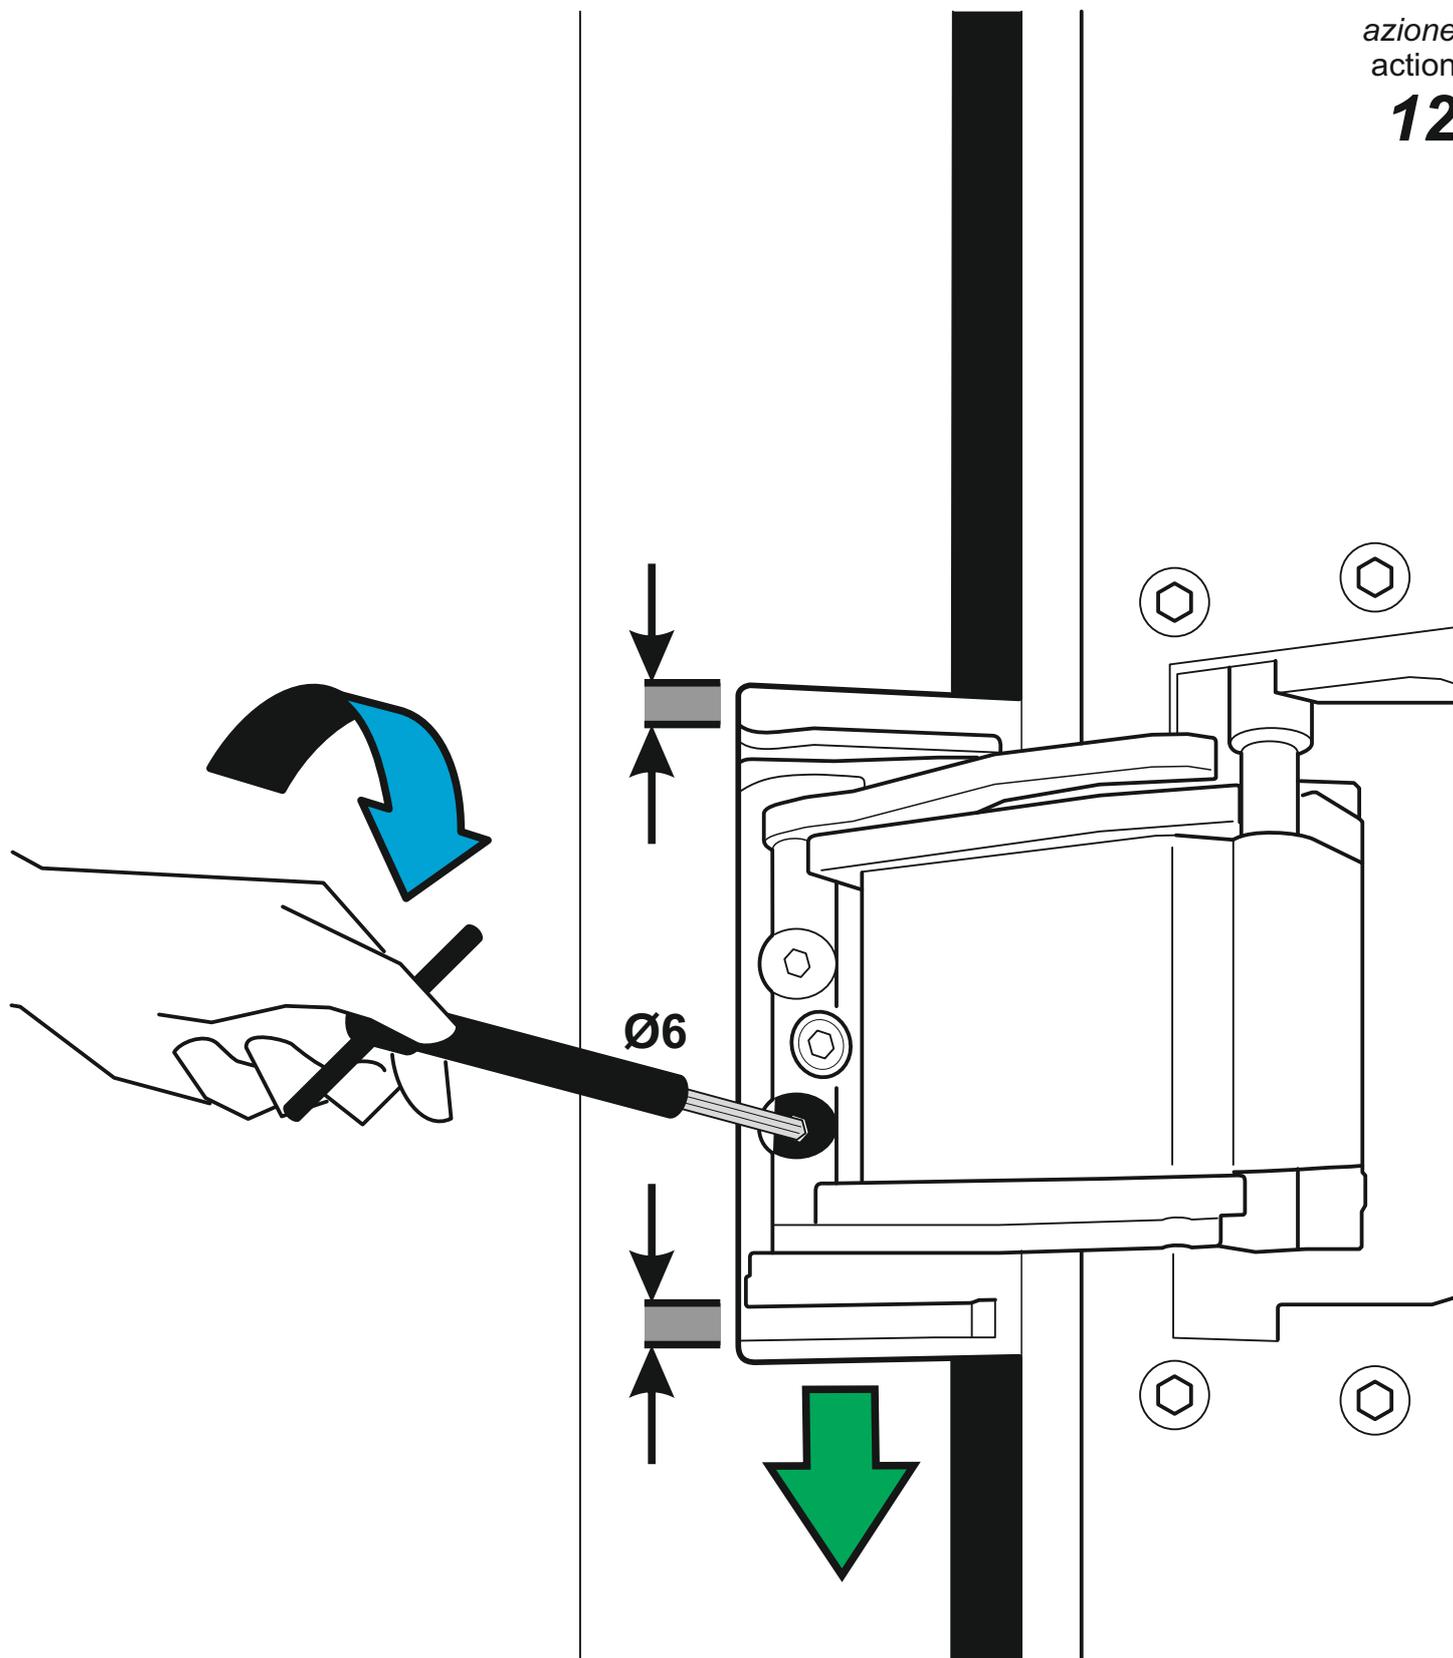

**FISSAGGIO  
PORTA**

**DOOR FIXING**

*SULLA CERNIERA SUPERIORE,  
con la chiave a brugola, avvitare il perno  
**superiore** della cerniera per alzare la  
porta fino a che la distanza sopra e sotto  
è uguale.*

ON THE UPPER HINGE,  
please screw the upper deadbolt of the hinge to  
lift the door until the upper and lower distances  
are equal.

Una volta raggiunta la quota, con la chiave a brugola avvitare il perno **inferiore** fino a che appoggia solidamente alla base della porta.

RIPETERE LE AZIONI 11 E 12 SULLA CERNIERA INFERIORE.

Screw the lower deadbolt until it perfectly leans against the door.

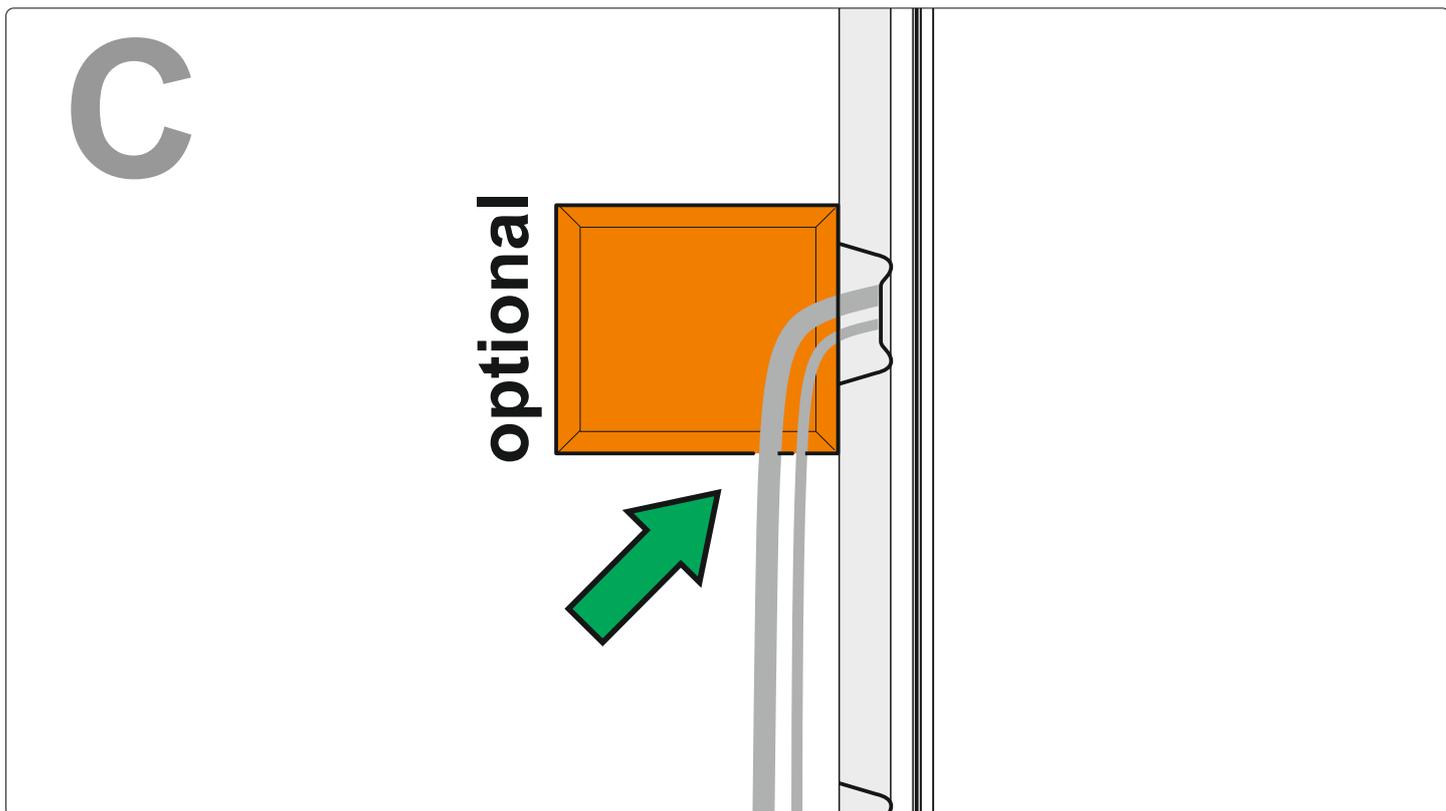

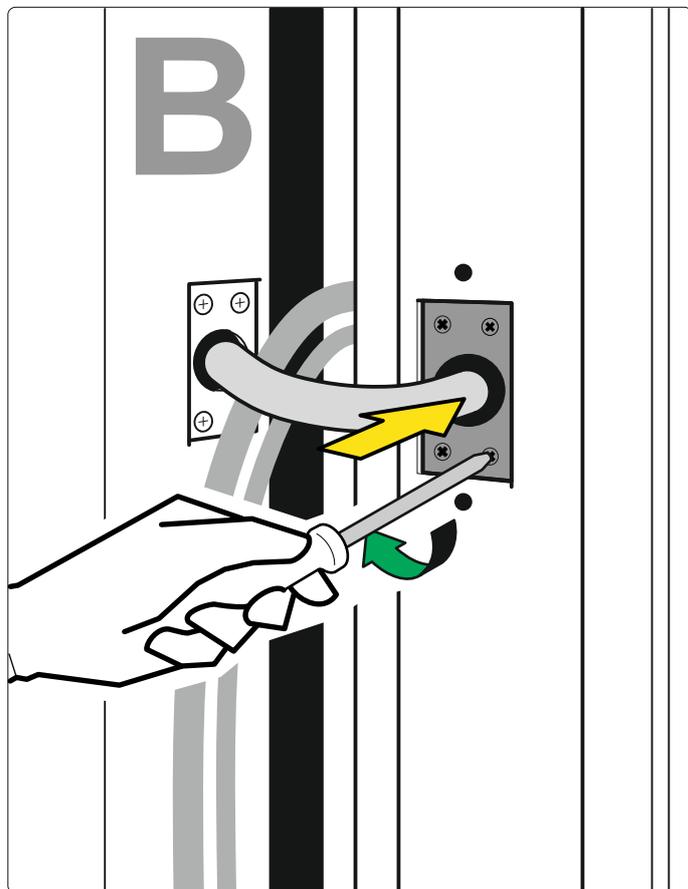

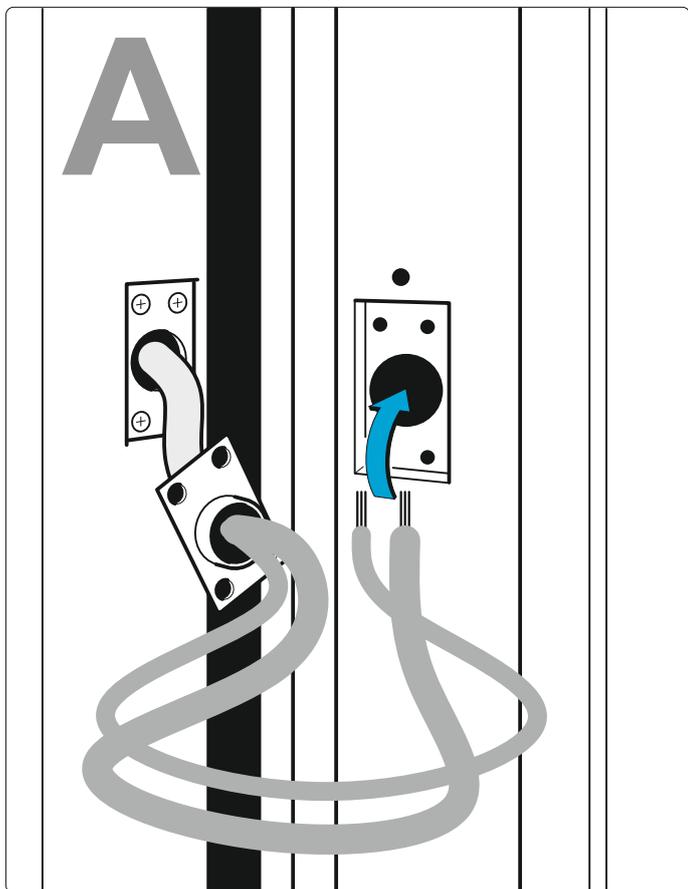

REPEAT ACTION 11 AND 12 ALSO FOR THE LOWER HINGE.
