CAPITOLO 1 OPERAZIONI PRELIMINARI

Al ricevimento della Scatola Accessori comportarsi come descritto sulla **GUIDA AL MONTAGGIO PORTA**, Capitolo 1 "PREMESSA", sottocapitolo 1.3.

CAPITOLO 2 CONTROLLI

Controllare che il **CODICE ACCESSORI**, corrisponda all'ordine.

CAPITOLO 3 CONTENUTO SCATOLA ACCESSORI

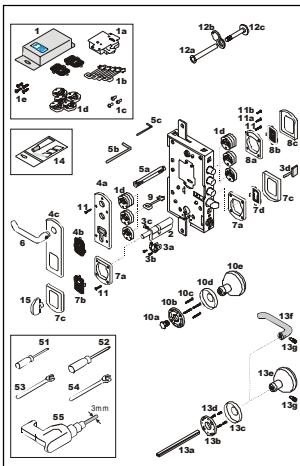

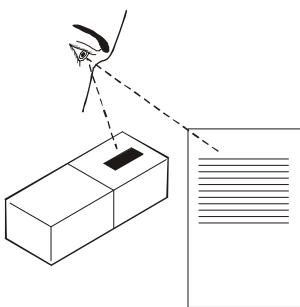

Aprire la Scatola Accessori e controllare che il contenuto corrisponda alla Distinta o al foglio all'interno della scatola.

Se corrisponde procedere al montaggio come descritto dal CAPITOLO 4 in poi.

Se non corrisponde, informare il Costruttore come descritto sulla **GUIDA AL MONTAGGIO PORTA**, CAPITOLO 1, sottocapitolo 1.3.

CAPITOLO 4 ATTREZZI

Oltre agli attrezzi in dotazione, munirsi anche degli attrezzi citati nella pagina precedente.

CHAPTER 1 PRELIMINARY OPERATIONS

When you receive the Accessories box, follow the instructions in the **INSTALLATION INSTRUCTIONS FOR THE DOOR**, Chapter 1 "INTRODUCTION", item 1.3.

CHAPTER 2 CHECK LIST

Check that the ACCESSORIES CODE matches the order.

CHAPTER 3 ACCESSORIES BOX CONTENT

Open the Accessories box and check that the content matches the Itemized packing list.

If it does match, proceed with the installation as instructed in from CHAPTER 4 on.

If it does not match, contact the Manufacturer as instructed in the **INSTALLATION INSTRUCTIONS FOR THE DOOR**, Chapter 1, item 1.3.

CHAPTER 4 TOOLS

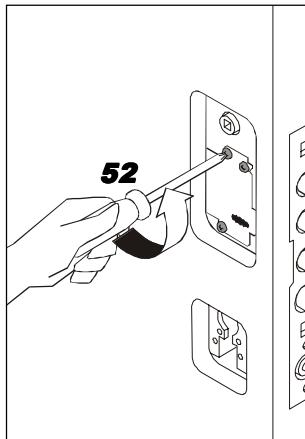

Along with the tools that are packaged with this kit be sure to procure those separately cited in the preceding page.

**CAPITOLO 5
SMONTAGGIO
NUCLEO DI SERVIZIO**

5.1

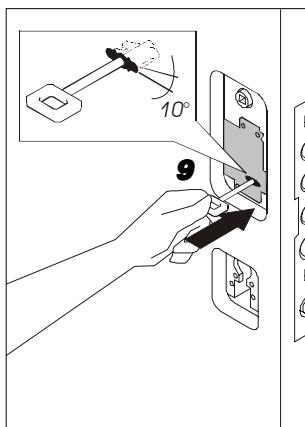

Con il Cacciavite a Stella (52) svitare le tre viti che fissano il nucleo da cantiere.

NON BUTTARE LE VITI.

5.2

Inserire la Chiave da Cantiere (9) e ruotarla di dieci gradi (10°).

5.3

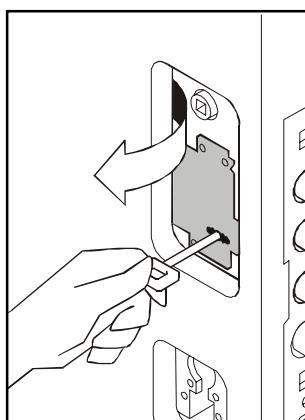

Estrarre il nucleo da cantiere.

5.4

Buttare il nucleo da cantiere nei materiali ferrosi (rifiuti).

5.5

Lo SMONTAGGIO DEL NUCLEO DI SERVIZIO, è finito.

**CHAPTER 5
DISASSEMBLING THE SERVICE CORE SET**

5.1

With a Phillips Head screwdriver (52) unscrew the three screws that secure the builder's core set.

DO NOT THROW AWAY THE SCREWS.

5.2

Insert the Builder's Key (9) and turn it by ten degrees (10°).

5.3

Extract the builder's core set.

5.4

Throw out the builder's core set into the designated metal materials waste bins.

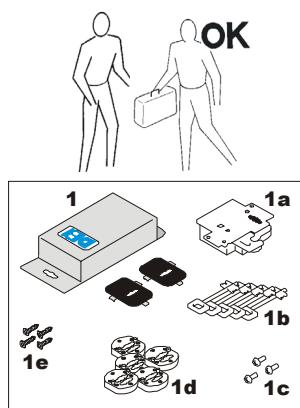

5.5

DISASSEMBLING THE SERVICE CORE SET is now complete.

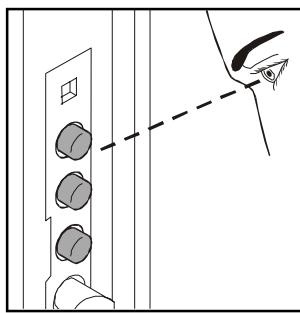

**CAPITOLO 6
MONTAGGIO
NUCLEO DEFINITIVO**

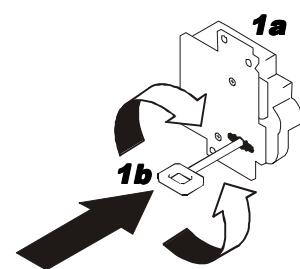

ATTENZIONE SICUREZZA!
La scatola del Nucleo Definitivo (1), va aperta in presenza del Cliente.

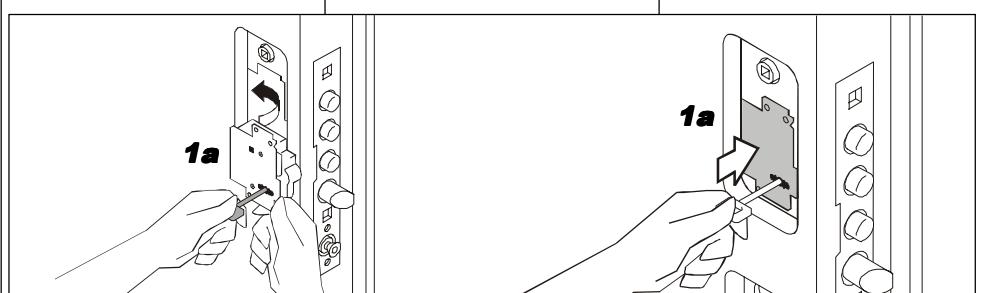

6.1
Assicurarsi che tutti i perni della serratura siano rimasti tutti retracti.

6.2
Per il collaudo del Nucleo definitivo (1a), inserire una delle cinque Chiavi (1b) nel foro del Nucleo e dare quattro mandate in avanti e quattro mandate indietro.

6.3
Infilare il Nucleo (1a) definitivo nella sua sede.

**CHAPTER 6
ASSEMBLING THE
DEFINITIVE CORE SET**

SAFETY WARNING!
The box of the Definitive Core Set (1) should be opened in the presence of the Client.

6.1
Be sure that all the lock's pins are retracted.

6.2
To check the definitive Core Set (1a), insert one of the five Keys (1b) into the hole of the Core Set and turn the keys four times forward and four times backwards.

6.3
Insert the Definitive Core Set (1a) securely into its place.

6.4
Avvitare,
MA NON SERRARE,
il Nucleo (1a) con le Viti
(1c).

NOTA!
*Qualora qualche vite
cada all'interno della
porta, recuperare
una delle 3 viti tolte in
precedenza (azione 5.1).*

6.5
Con la Chiave (1b) inserita,
provare tutte e quattro
le mandate.

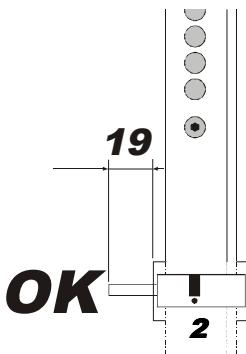

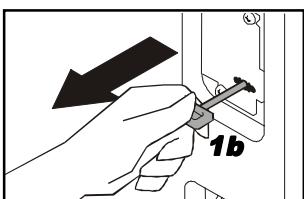

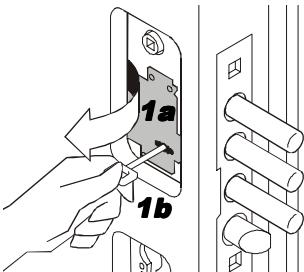

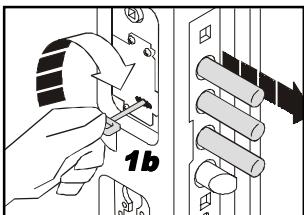

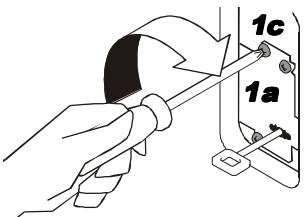

6.6
*Se la Chiave (1b) non gira
liberamente, smontare
il Nucleo (1a) e ripetere le
operazioni dall'inserimento.
Solo quando la Chiave
gira liberamente, serrare
a fondo le viti.*

6.7
Togliere la Chiave (1b).

6.8
*Il MONTAGGIO NUCEO
DEFINITIVO è finito.*

CAPITOLO 7 MONTAGGIO ACCESSORI LATO INTERNO

7.1
NOTA!
*Ricordare che il gambo
del Cilindro (2) deve
spongere dal rivestimento
di 19 millimetri.
Tagliare l'eccedenza.*

6.4
Screw in,
BUT DO NOT TIGHTEN,
the Core Set (1a) with the
Screws (1c).

ATTENTION!
If a screw falls out on the
inside of the door, select
one of the 3 screws
removed previously
(step 5.1).

6.5
With the Key (1b) inserted,
try to turn it all four times.

6.6
*If the Key (1b) does not
turn freely, disassemble the
Core Set (1a) and repeat the
operations from insertion
onward. When the key turns
freely, tighten the screws
securely.*

6.7
Remove the Key (1b).

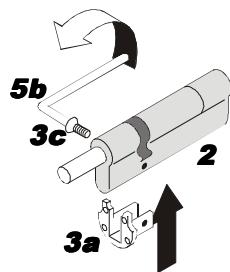

6.8
**ASSEMBLING THE
DEFINITIVE CORE SET**
is complete.

CHAPTER 7 ASSEMBLING THE INTERNAL SIDE ACCESSORIES

7.1
ATTENTION!
*Remember that the leg of the
Cylinder (2) has to expose
itself from the casing by 19
millimeters.
Cut off all excess.*

7.2

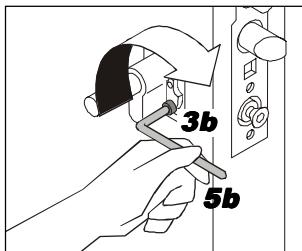

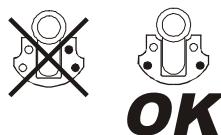

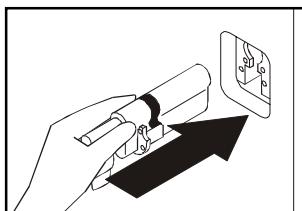

Inserire l'Aggancio (3a) sul Cilindro (2) e utilizzando la Chiave Brugola (5b), fissarlo con la Vite (3c).

7.3

Inserire il gruppo così formato nel corpo serratura dal lato interno della porta e

con la Chiave brugola da 3 (5b), fissarlo (su due fori a scelta ma sui lati opposti) in modo definitivo con le due Viti (3b).

7.4

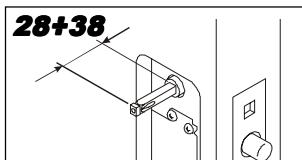

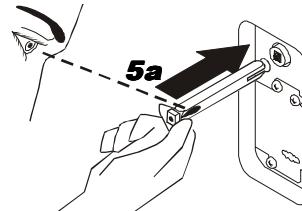

NOTA!

Se si deve montare il Pomolo Passante (13h) o la Maniglia Passante (13l), non eseguire le operazioni 7.5 - 7.6 - 7.11 e il capitolo 9.

7.5

Facendo attenzione che l'incavo per il bloccaggio della maniglia sia orientato verso il lato chiusura porta, infilare delicatamente a battuta, il Quadro ad espansione (5a) e farlo sporgere:

rivestimento 4 mm = 38
rivestimento 16 mm = 32
rivestimento 20 mm = 28

7.2

Insert the Hook (3a) onto the Cylinder (2) and secure with the Screw (3c) by using the Allen Wrench (5b).

7.3

Insert the group thus composed into the body of the lock from the inside of the door

and

with the 3mm Allen Wrench (5b), securely tighten with the two Screws (3b) (choosing any two holes as long as they're on opposite sides).

7.4

ATTENTION!

If you have to assemble the Pass Through Knob (13h) or the Pass Through Handle (13l), do not perform operations 7.5 - 7.6 - 7.11 and chapter 9.

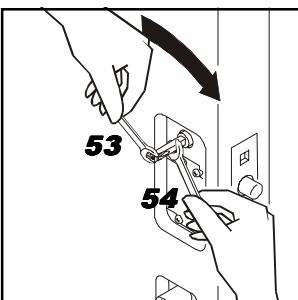

7.5

Make sure that the slit that blocks the handle is oriented toward the side the door closes and then delicately insert the Expanding Mechanism (5a) until it is blocked. It should be this far outside the casing:

casing 4 mm = 38
casing 16 mm = 32
casing 20 mm = 28

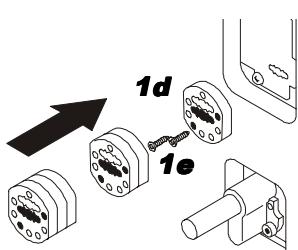

7.6

Con le Chiavi fisse da 7 e 8 (53 e 54) serrare il dado.

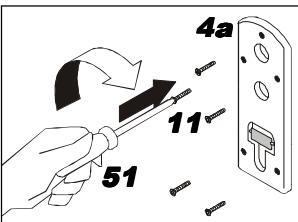

7.7

Fissare il primo Distanziale (1d) con due viti (1e), ed in base a quanti ne servono inserire un altro o altri a pressione sul primo, aggiungendo alcune gocce di adesivo in dotazione tra il primo distanziale ed i successivi, ma senza interferire sulla rotazione della Serrandina copriforo (4d).

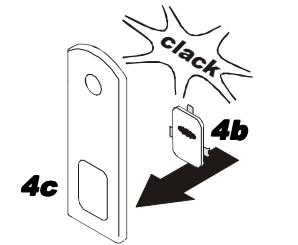

7.8

*Con il Cacciavite (51) fissare alla porta il Supporto placca (4a) con **cinque** Viti TPS M4x30 (11).*

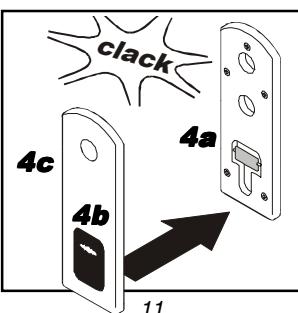

7.9

Inserire l'Inserto per chiave (4b) nella Placca (4c).

7.10

Inserire a pressione, la Placca (4c) con l'Inserto (4b) nel Supporto placca (4a).

7.6

With the 7" and 8" Wrenches (53 and 54) tighten the wheel nut.

7.7

*Secure the first Spacer (1d) with two screws (1e), and depending upon how many are needed, insert another or others by pressing on the **first**, add some drops of glue between the first spacer and the others, but without interfering with the rotation of the Blinds that cover the hole (4d).*

7.8

*With the Screwdriver (51) secure the Cover Support (4a) to the door with **five** TPS M4x30 screws (11).*

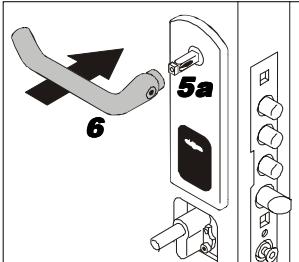

7.9

Insert the key insert (4b) into the Cover (4c).

7.10

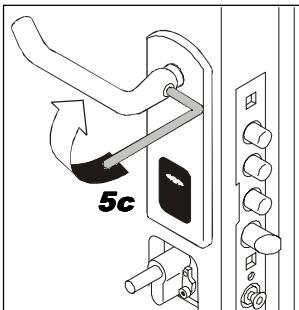

Insert the Cover (4c) with the insert (4b) into the Cover Support (4a) using pressure.

7.11
Infilare la Maniglia (6) sul Quadro ad espansione (5a)

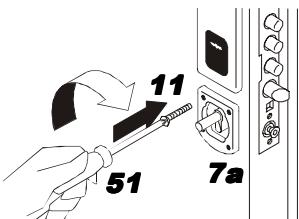

e con la Chiave brugola (5c) serrarla in modo definitivo.

7.12
Facendo attenzione che la parte rotonda sia rivolta verso il basso, con il Cacciavite da 4 (51), fissare alla porta - con quattro Viti TPS M4x30 (11) - il Supporto placca (7a).

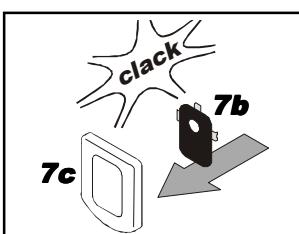

7.11
Place the Handle (6) onto the Expanding Mechanism (5a)

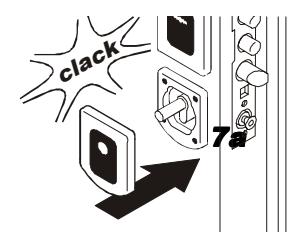

and finally secure it using the Allen Wrench (5c).

7.13
Inserire a pressione l'Inserto per cilindro (7b) nella Placca (7c).

7.12
Making sure that the round part is facing down, secure the Cover Support (7a) to the door by using the 4" Screwdriver (51), with four TPS M4x30 screws (11).

7.14
Inserire a pressione la Placca così composta nel Supporto placca (7a).

7.13
Insert the cylinder insert (7b) into the Cover (7c) using pressure.

7.14
Insert the Cover thus composed into the Cover Support (7a) using pressure.

7.15

Infilare il Pomolo (15) sul perno del Cilindro (2) e fissarlo con il grano.

7.16

Il MONTAGGIO ACCESSORI LATO INTERNO E' FINITO.

**CAPITOLO 8
MONTAGGIO
ACCESSORI
LATO ESTERNO**

8.1

Fissare il primo Distanziale (1d) con due viti (1e), ed in base a quanti ne servono, inserirne un altro o altri a pressione sul **primo** aggiungendo alcune gocce di adesivo in dotazione tra il primo distanziale ed i successivi.

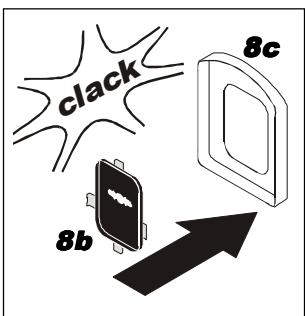

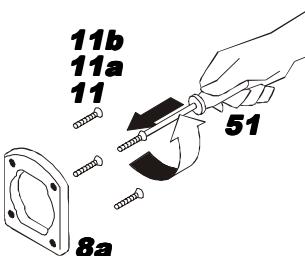

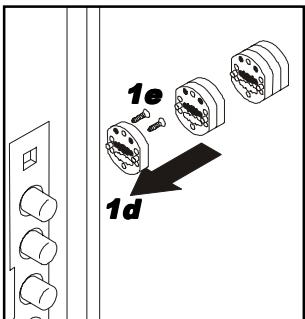

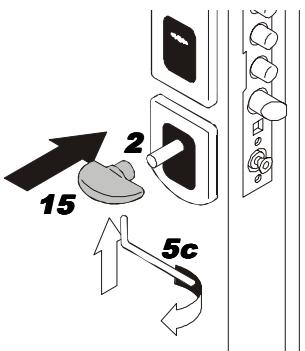

8.2

Con il Cacciavite (51) fissare il Supporto placca (8a) alla porta con:

- per rivestimento da 20 millimetri con Viti TPS M4X30 (11)
- per rivestimento da 16 millimetri con Viti TPS M4x27 (11a)
- per rivestimento da 4 millimetri con Viti TPS M4x14 (11b)

8.3

Inserire a pressione l'Inserto per chiave (8b) nella Placca (8c).

7.15

Place the knob (15) on the Cylinder pin (2) and secure it with the grub screw.

7.16

ASSEMBLING THE INTERNAL SIDE ACCESSORIES IS NOW COMPLETE.

**CHAPTER 8
ASSEMBLING THE EXTERNAL SIDE ACCESSORIES**

8.1

Secure the first Spacer (1d) with two screws (1e), and depending on how many are needed, insert another or others onto the **first** using pressure, add some drops of glue between the first spacer and the others.

8.2

With the screwdriver (51) secure the Cover Support (8a) to the door with:

- for 20 millimeter casing with TPS M4X30 (11) Screws
- for 16 millimeter casing with TPS M4x27 (11a) Screws
- for 4 millimeter casing with TPS M4x14 (11b) Screws

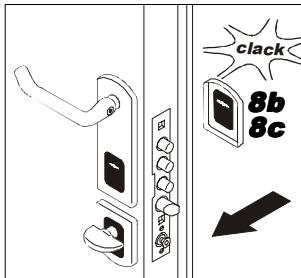

8.3

Insert the key insert (8b) into the Cover (8c) using pressure.

8.4

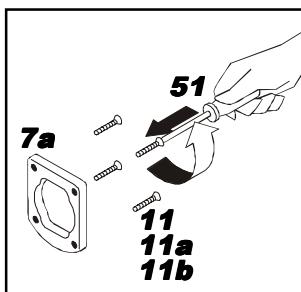

Inserire a pressione la Placca (8c)+(8b) nel Supporto placca.

8.5

Con il Cacciavite (51) fissare il Supporto placca (7a) con:

- per rivestimento da 20 millimetri con Viti TPS M4X30 (11)
- per rivestimento da 16 millimetri con Viti TPS M4x27 (11a)
- per rivestimento da 4 millimetri con Viti TPS M4x14 (11b)

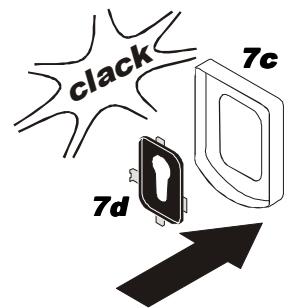

8.4

Insert the Cover (8c) + (8b) into the Cover Support (7a) using pressure.

8.5

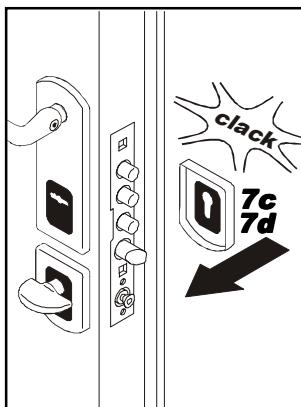

With the screwdriver (51) secure the Cover Support (7a) with:

- for **20 millimeter** casing with TPS M4X30 (11) Screws
- for **16 millimeter** casing with TPS M4x27 (11a) Screws
- for **4 millimeter** casing with TPS M4x14 (11b) Screws

8.6

Insert the cylinder insert with key (7d) into the Cover (7c) using pressure.

8.7

Insert the Cover (7c + 7d) into the Cover Support using pressure.

8.8

ASSEMBLING THE ESTERNAL SIDE ACCESSORIES is now complete.

**CAPITOLO 9
MONTAGGIO
POMOLO FISSO**

**9.1
NOTA!**
*Il Pomolo fisso va fissato
MINIMO 25 centimetri
dal bordo della porta.*

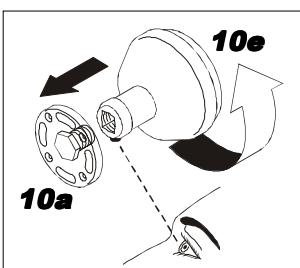

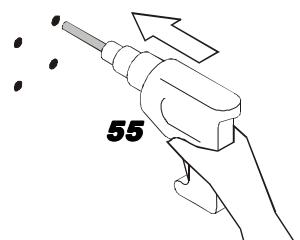

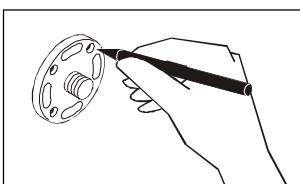

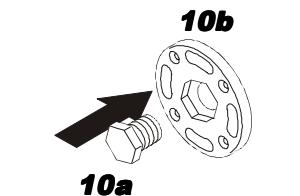

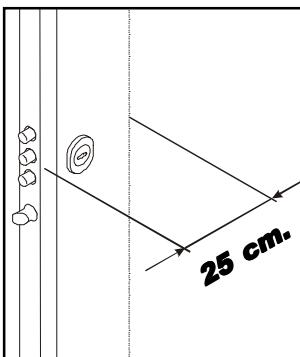

9.2
*Decidere la posizione
del Pomolo.*

9.3
*Infilare la Boccola filettata
(10a) nella sua sede
nel Supporto (10b).*

9.4
*Posizionare il Supporto
così composto, nella
posizione scelta
e segnare i fori da fare.*

9.5
*Forare con
la Punta Ø 3 (55).*

9.6
*Avvitare il Pomolo (10e)
sulla Boccola (10a)
ed orientare il Supporto
in modo che quando
il Pomolo sarà fissato,
il grano risulti sulla parte
inferiore.*

**sCHAPTER 9
ASSEMBLING THE
FIXED KNOB**

**9.1
ATTENTION!**
*The Fixed Knob should be
mounted AT LEAST 25
centimeters from the edge
of the door.*

9.2
*Decide on the position of the
Knob.*

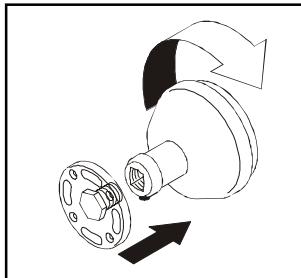

9.3
*Insert the Threaded bush
(10a) into its place in the
Support (10b).*

9.4
*Position the Support thus
composed into the chosen
position and make marks for
holes to be drilled.*

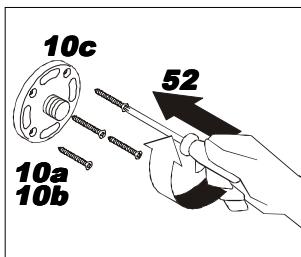

9.5
*Make holes with a Ø 3 drill bit
(55).*

9.6
*Screw in the Knob (10e)
onto the Bush (10a) and
position the Support in a way
that when the Knob is in
place the grub screw is on
the inferior part.*

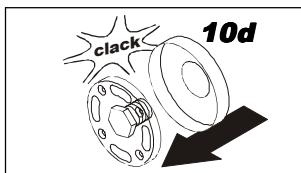

9.7
Risvitare il Pomolo.

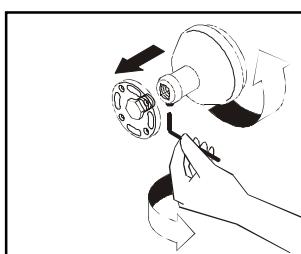

9.8
Utilizzando il cacciavite (52), fissare il Supporto completo di Boccola (10a e 10b) al pannello con le Viti autofilettanti (10c).

9.9
Inserire la Placca (10d).

9.10
Avvitare il Pomolo e serrare il grano.

9.11
Il MONTAGGIO DEL POMOLO FISSO A CENTRO PORTA, è finito.

9.7
Screw out the Knob.

9.8
Utilizing the screwdriver (52), secure the Support complete with Bush (10a and 10b) to the panel with the Self-tapping Screws (10c).

9.9
Insert the Cover (10d).

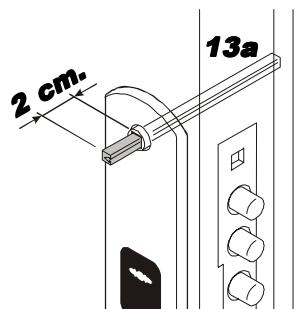

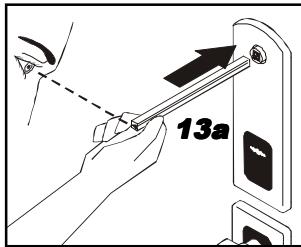

9.10
Screw in the Knob and tighten the grub screw.

9.11
ASSEMBLING THE FIXED KNOB TO THE DOOR CENTER is now complete.

**CAPITOLO 10
MONTAGGIO
POMOLO O MANIGLIA
PASSANTE GIREVOLE**

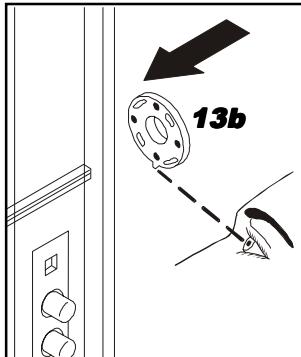

10.1

Osservando che le cave siano interne e verso il lato chiusura porta, infilare le due barrette del Quadro (13a) sul foro maniglia e farle sporgere dal pannello non meno di **2 centimetri**.

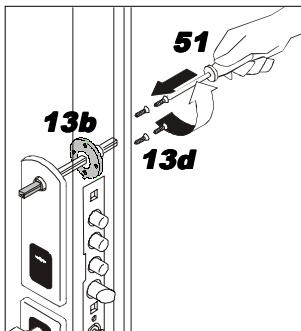

10.2

Facendo attenzione che la tacca sia sulla parte inferiore...

con il Cacciavite (51), fissare il (13b) alla porta con le quattro Viti (13d).

**CHAPTER 10
ASSEMBLING THE
PASS THROUGH
TURNING KNOB OR
HANDLE**

10.1

Observing that the slots are internal and toward the side where the door closes, insert the two bars of the Square rod (13a) on the handle hole and let them protrude from the panel no less than **2 centimeters**.

10.2

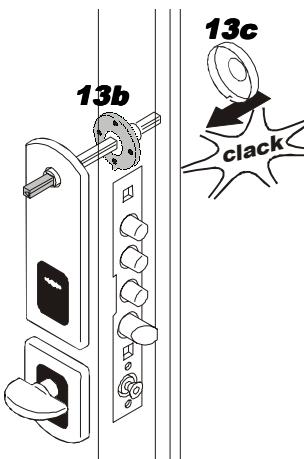

Making sure that the indentation is on the inferior part . . .

use the Screwdriver (51) to secure the (13b) to the door with the four screws (13d).

10.3

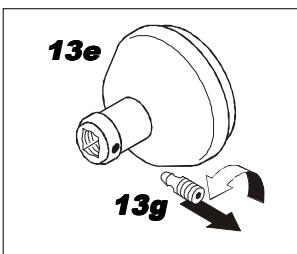

Inserire la Placca (13c) nel suo Supporto (13b).

- Se si deve montare il Pomolo girevole (13e), continuare qui di seguito.
- Se si deve montare la Maniglia girevole (13f), passare all'azione 10.7.

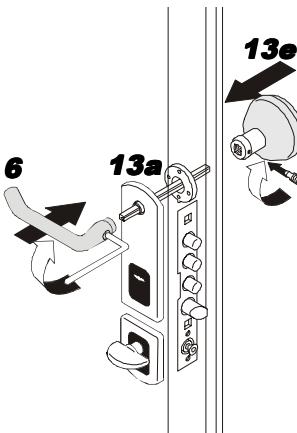

10.4

Svitare il Grano (13g) dal Pomolo (13e).

10.5

Inserire quanto basta (l'esperienza è regina in merito) il Pomolo (13e) e la Maniglia (6) nelle Barrette (13a) e fissarli con i propri grani in modo che le due barrette siano forzate ed allargate.

10.6

Il MONTAGGIO DEL POMOLO PASSANTE E MANIGLIA, è finito.

10.3

Insert the Cover (13c) into its Support (13b).

- If you have to mount the Turning Knob (13e), continue with the following instructions

- If you have to mount the Turning Handle (13f), go to item 10.7.

10.4

Unscrew the Grub Screw (13g) from the Knob (13e).

10.5

Insert the Knob (13e) to the correct point (using experience as a guide) and the Handle (6) into the Bars (13a) and secure them with their grub screws so that the two bars are forced open wide

10.6

ASSEMBLING THE PASS THROUGH KNOB AND HANDLE is now complete.

10.7
Svitare il grano (13g) dalla Maniglia (13f).

10.8
Inserire quanto basta (l'esperienza è regina in merito) la Maniglia girevole (13f) e la Maniglia (6) nelle Barrette (13a) e fissarli con i propri grani in modo che le due barrette siano forzate ed allargate.

10.9
Il MONTAGGIO DELLA DOPPIA MANIGLIA PASSANTE GIREVOLE, è finito.

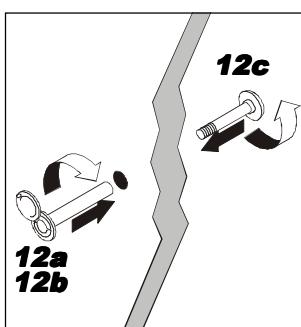

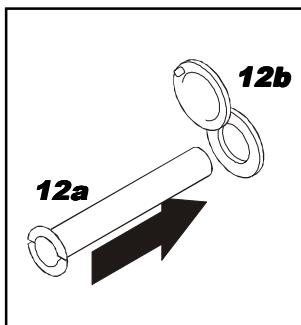

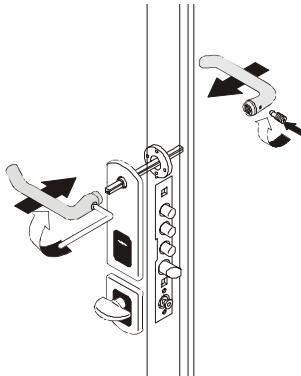

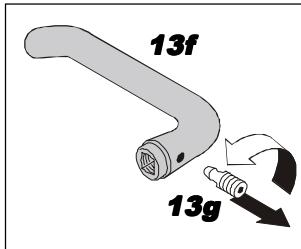

CAPITOLO 11 MONTAGGIO OCCHIO MAGICO

11.1
Inserire la Prolunga (12a) nell'Oscurante (12b).

11.2
Infilare la Prolunga con Oscurante (12a e 12b) dal lato interno ed il Portalete (12c) dal lato esterno.

11.3
A mano, tenendo fermo il 12a ed il 12b, avvitare a fondo il 12c.

11.4
Il MONTAGGIO DELL'OCCHIO MAGICO, è finito.

10.7
Unscrew the Grub Screw (13g) from the Handle (13f).

10.8
Insert the Turning Handle (13f) to the correct point (using experience as a guide) and the Handle (6) into the bars (13a) and secure them with their grub screws so that the two bars are forced open wide.

10.9
ASSEMBLING THE DOUBLE PASS THROUGH TURNING HANDLE is now complete.

CHAPTER 11 ASSEMBLING THE PEEPHOLE

11.1
Insert the Extension Bar (12a) into the Light Blocker (12b).

11.2
Insert the Extension Bar with the Light Blocker (12a and 12b) from the inside and the Lens Casing (12c) from the outside.

11.3
Keeping the 12a and 12b still, use hands to screw in the 12c.

11.4
ASSEMBLING THE PEEPHOLE is now complete.

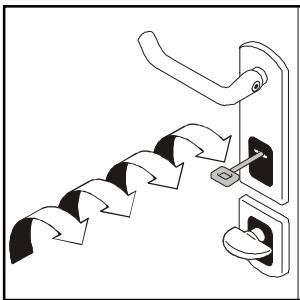

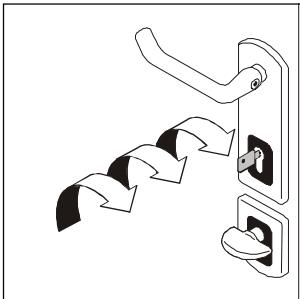

**CAPITOLO 12
CONCLUSIONI**

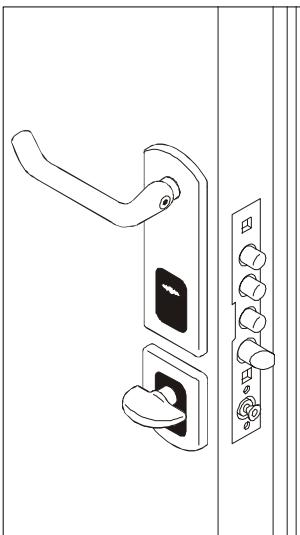

**ATTENZIONE
SICUREZZA!**

**LA PORTA NON E'
CONSIDERATA CHIUSA
IN SICUREZZA SE NON
E' STATA CHIUSA CON LE:**

- 3 MANDATE IN CASO
DI CILINDRO EUROPEO**
- 4 MANDATE IN CASO
DI DOPPIA MAPPA**

**Il MONTAGGIO DEL KIT
MANIGLIERIA SERIE 6
SERRATURA DOPPIA
MAPPA CON SERRATURA
DI SERVIZIO E
LIMITATORE DI APERTU-
RA, è finito.**

**CHAPTER 12
CONCLUSION**

**SAFETY
WARNING!**

**THE DOOR IS NOT
CONSIDERED SAFELY
CLOSED IF IT HAS NOT
BEEN SHUT WITH:**

- 3 TURNS IN CASE OF
EUROPEAN CYLINDER**
- 4 TURNS IN CASE OF
DOUBLE SLOT**

**ASSEMBLING THE SERIES
6 HANDLE KIT
DOUBLE SLOT LOCK
WITH SERVICE LOCK AND
OPENING LIMIT is complete.**
